

Micah LaSala | Full Stack Developer

Raleigh, NC | (919) 438-2091 | mlasala45@gmail.com | [LinkedIn](#) | [Portfolio](#)

Objective

I'm a highly motivated computer science graduate seeking full-time work. I'm always excited by the opportunity to explore complex systems, and create solutions to interesting problems. I specialize in Web and Software Development, but have robust skills in a variety of areas. I pride myself on my adaptability and ability to learn quickly, and I'm passionate about putting my all into everything I do.

Education

University of North Carolina at Charlotte, Charlotte, NC | May 2024

Bachelor of Computer Science | Concentration: Software, Systems, and Networks

- Software Engineering, Cloud Computing, High Performance Computing, Database Design and Implementation, Data Mining, Data Structures and Algorithms

Technical Skills

Languages: C#, Javascript, Python, SQL, Java, HTML, CSS, C++

Frameworks: React, .NET, ASP.NET, NodeJS, Blazor, React Native, TensorFlow, BabylonJS

Additional Tools: Git, Docker, Gradle

Practices: REST APIs, Performance Optimization, Database Design, Application Development, Documentation, Test Writing

Platforms: Azure, Visual Studio, VSCode, IntelliJ, Android Studio

Certificates

Microsoft AZ-900: Azure Fundamentals (Feb 2025)

Projects

Cross-Platform P2P Messaging App

React Native (Web, Paper, WebRTC)

- Developed a peer-to-peer chat app to allow seamless text and file transfer directly between devices.
- Implemented WebRTC ICE Handshake supported by a minimalist signal server to minimize reliance on third-party servers during communication.

3D Exoplanets Data Visualizer

React, BabylonJS, PostgreSQL, NodeJS, WebGPU

- Designed and built a web-based 3D visualizer for data from the NASA Exoplanets Archive.
- Optimized rendering performance to performantly display thousands of stars in-browser.
- Used an ETL workflow to process data from multiple sources into a usable format.

Full Stack Image Ranking SPA (UNCC Capstone)

React, ASP .NET, PostgreSQL, Azure

- **Kubernetes, MUI, Docker, Entity Framework**
- Self-directed research, design, and E2E development of a full-stack web application.
- Architected a scalable, containerized deployment environment using Azure Kubernetes Services.

Successful Video Game Mods

Lua

- Developed several well-received mods for the game Don't Starve, with a combined 38,000 downloads.
- Seamlessly ported features between substantially different code bases.
- Developed an extensive library of support features, generalizing the underlying game systems and exposing useful hooks to developers.
- Released an integration mod within 6 hours of DLC release, with 14,000 downloads, providing a feature that was later officially supported by the development team.

Work Experience

Math/Science Tutor

Huntington Learning Center, Cary, NC

Oct 2024 - Present

- Prepare students for ACT/SAT exams, consistently resulting in improved test scores
- Teach and reinforce Calculus, Geometry, and Pre-Calculus material to HS students
- Work closely with management to document and optimize student growth strategies

Personal IT Support

Freelance

Sep 2011 - Nov 2022

- Provided IT support services such as file recovery, device setup, troubleshooting, and teaching software operation

FOH Worker

Noodles and Company, Cary, NC

Jun 2020 - Aug 2022

- Provided excellent customer service in a high volume setting
- Trained new team members to handle job procedures and standards
- Handled cash transactions and processed payments
